CHANDU GANGOLA

Full Stack Developer

+91 9557185626 | chandugangola999@gmail.com | [LinkedIn](#) | Haldwani | [Portfolio](#)

PROFESSIONAL SUMMARY

4 years Full Stack Developer creating high-impact mobile and web products. Skilled in Flutter, React, React-Native, NodeJS, Golang, and AWS; building secure APIs, scalable services, and intuitive UIs. Strong with PostgreSQL, MongoDB, Agile/Scrum, CI/CD, and remote collaboration; clear communicator focused on quality and end-to-end delivery.

TECHNICAL SKILLS

Programming Languages: Java, Dart, Kotlin, JavaScript, TypeScript, Python, Golang
Frameworks: ReactJS, NextJS, ExpressJS, Flutter, React-Native
Frontend: HTML5, CSS3, Flutter, ReactJS, React-Native
Backend: NodeJS, ExpressJS, REST APIs, GraphQL APIs
Tools: Git, Figma, Docker, Slack, Zoom, Jira, Trello, GitHub Actions, Bitbucket Pipelines
Databases: MongoDB, PostgreSQL
Platforms: AWS, Android, iOS, Firebase
Methodologies: Agile/Scrum methodologies, CI/CD
Library: Provider, BloC, WebRTC
Others: MVC, Clean Architecture

PROFESSIONAL EXPERIENCE (4 YEARS)

Full Stack Developer | **CGMeetup Studio LLP** | **Pune** | **Jan 2024 - Dec 2025**

- Engineered **full-stack features** with Flutter, NodeJS, and Golang to support high-traffic scenarios.
- Owned **end-to-end feature delivery** across mobile and backend, partnering with product, design, and QA to define scope and acceptance criteria.
- Architected a **secure backend** in NodeJS/MongoDB, implementing auth, validation, and role-based permissions.
- Built **Flutter UI components** and flows aligned to design systems to improve usability and accessibility.
- Designed **RESTful APIs** and data contracts; maintained documentation for consistent integration.
- Implemented **CI/CD automation** to streamline builds, tests, and releases, reducing cycle time by 20%.
- Ran lifecycle messaging and push campaigns that improved **user retention** by 18%.
- Instrumented **monitoring and alerts**; reduced MTTR by 10% via proactive logging and tracing.
- Optimized **queries and caching** to lower **API latency** by 15%, enhancing performance under load.

Technologies Used: Flutter, NodeJS, MongoDB, GraphQL APIs, Websocket, WebRTC, Golang, Gin, gRPC, Git, CI/CD (GitHub Actions, Bitbucket Pipelines), Jira, Trello, Slack

Mobile Developer | **Zrow Solution** | **Remote** | **Jan 2023 - Dec 2023**

- Delivered **cross-platform apps** using **Flutter** and **React-Native**; shipped pixel-accurate UIs based on Figma specs.
- Integrated **real-time updates**, notifications, and device capabilities to lift engagement.
- Implemented **secure payment flows** and vendor operations; enforced validation and robust error handling.
- Configured **Firebase** (Auth, Firestore, Messaging) for scalable backend services.
- Improved **startup and rendering**, reducing load times by 15%.
- Established **code reviews**, unit tests, and release pipelines, cutting defects by 10%.
- Created **reusable components** and modules to accelerate development by 30%.

Technologies Used: Flutter, React-Native, Firebase, Android, iOS, Git, CI/CD (GitHub Actions, Bitbucket Pipelines), Figma, Slack, Jira, Trello

Full Stack Developer | **Q1 Business Solution** | **Remote** | **Jan 2022 - Dec 2022**

- Designed **API endpoints** and data models; implemented **caching**, pagination, and validation for stability.
- Applied **Clean Architecture** and MVC patterns to improve modularity and maintainability.
- Set up **Git workflows** and CI/CD pipelines to automate builds/tests and ensure consistent releases.
- Optimized service performance, reducing **API latency** by 10%.
- Strengthened reliability with **monitoring** and error handling, achieving an uptime of 99%.

- Collaborated in **Agile**/**Scrum** ceremonies; refined backlog and delivered sprint commitments.

Technologies Used: Flutter, NodeJS, MySQL, Git, AWS, CI/CD (GitHub Actions, Bitbucket Pipelines), Docker, Jira, Trello, Slack

PROJECTS

Artist | **Social Networking App and Website for Artists** | CGMeetup Studio LLP

Creator-focused social app with feeds, comments, and media sharing.

- Developed **feeds, comments, and media sharing**; scaled to 50k+ MAU with an uptime of 99.9%.
- Enhanced engagement via **reactions**, mentions, and notifications, lifting activity by 40%.

Scoretab | **Sports Community App** | Zrow Solution

Community app delivering real-time match updates and interactive player features.

- Built **real-time match updates** with RestAPI services, sustaining 10k concurrent users with sub-10 ms latency.
- Released **interactive player features** that increased session duration by 5%.

TradeIt | **E-commerce Marketplace Platform** | Zrow Solution

Marketplace with a vendor dashboard and a secure payment gateway.

- Integrated **secure payment gateway** and vendor tools, raising conversion by 15% and lowering chargebacks by 10%.
- Optimized **catalogue and search** flows, reducing discovery time by 15%.

RakerGuide | **Learning Management System (LMS)** | Zrow Solution

LMS with video modules, quizzes, and progress tracking by **React-Native**.

- Delivered **video modules and quizzes**, increasing course completion rate by 15%.
- Optimized **media delivery** to reduce buffering and improve playback by 20% .

Q1 Go with one | **Fintech Application with Integrated Cab Booking** | Q1 Business Solution

Mobile fintech platform with cab booking integration; NodeJS/MySQL backend and Flutter front-end.

- Launched cab booking within the fintech app, achieving **20% DAU lift**.
- Deployed **secure payments** and robust backend, reducing transaction failures by 20% and improving checkout completion by 10%.

EDUCATION

Bachelor of Computer Science Engineering | *2014 - 2018*

Graphic Era Hill University | *Bhimtal*
